In addition, the Conversion Price will not lower than 90 percent of market price whereas the market price shall be calculated based on the weighted average price of the Company's shares trading on the Market for Alternative Investment (MAI) for not less than 7 consecutive trading days but not exceeding 15 consecutive trading days prior to the date that the holder of the Convertible Debentures exercise the right of conversion and the weighted average price is calculated from the weighted closing price by the trading volume of each consecutive business day (Floating Conversion Price). However, if the conversion price calculated above is lower than the par value of the Company's shares. The Company must issue additional compensation shares for the calculation of all shares issued at par value is based on the conversion price.

(Details appeared in the Summary of the important Terms and Conditions of the newly issued convertible debentures of the Company as approved by the Extraordinary General Meeting of Shareholders No. 1/2021 on June 15, 2021 appeared in attached 4)

**2. Objectives of issuance of capital increase shares and plans for utilizing the capital increase fund**

To be used as a working capital, paying debt, and to be reserved fund for the improvement of current branches and for the branch expansion in the future. However, in order to reduce risk of inadequate investment in the development of the projects, the Company has a policy to use money that receive from the offering of newly issued ordinary shares to investors in private placement as a working capital, paying debt, and to be reserved fund for the improvement of current branches and for the branch expansion, the Company expects that the capital received from the capital increase at this time will help strengthen the financial stability of the Company and when combined with the Company's existing assets and the revenue generated from the current business operations of the Company, will enable the Company to achieve its objectives and its specified plans for utilizing the fund.

**3. Effect to existing shareholders which may occur from the offering of newly issued ordinary shares to investors in private placement**

(Effect to existing shareholders which may occur from the offering of newly issued ordinary shares to investors in private placement are as specified in attached 2, capital increase report form, clause 8. and the effect to existing shareholders which may occur from the conversion of the Convertible Debentures are specified in attached 4: the Summary of the important Terms and Conditions of the newly issued convertible debentures of the Company as approved by the Extraordinary General Meeting of Shareholders No. 1/2021 on June 15, 2021)

**4. Opinion of the Board of Directors of the Company**

Reason and necessity of capital increase

The Board of Directors is of the opinion that the capital increase and the allotment of the said capital increase shares to investors in private placement will be the option for the Company to raising fund, enhance liquidity and swiftness of funding to catch up with the market condition and external factor which can be changed dramatically, and also benefit the Company's business operation in financial liquidity and reserve for the time when the Company is necessary to expand the investment. Including, it will reduce financial cost of the Company in the case of paying debt, as well as strengthen the Company's financial strength and stability, and also adjust the Company's capital structure to be more appropriate, and preserve debt to equity ratio to be in proper level which will help enhance loan capability. The Company could use the money receiving from the capital increase to generate income and develop the Company's business, which could benefit the Company and shareholders in the future. Moreover, the issuance and offering of newly issued ordinary shares via private placement in amount of 10% of the Company's paid-up capital with the discount not exceeding 10% of the market price at the offering period could only cause a little effect to shareholders in dilution effect.

Feasibility of plans for utilizing the fund received from the offering shares

The allocation of newly issued ordinary shares in this time could increase the raising fund options to the Company which will be more flexible. For each issuance and offering of shares, the board of directors shall consider the necessity to use the capital at that time, benefit that the Company will receive, including effect that might cause to shareholders, and also compare the benefit and financial cost with other funding method such as loan from financial institution or issuing bonds.

Reasonableness of the capital increase, plans for utilizing the fund received from the offering shares and project to be operated including sufficiency of source of fund

The Board of Directors is of the opinion that by increasing the reserve method of capital funding to be used as working capital and expand the Company's business will help the Company to reduce liquidity risk that might occur in the future, and also make the Company have sufficient capital to

support for the improvement of current branches and for the branch expansion, and could be used as reserved capital to expand the investment in the future. The offering of shares via private placement in this time still not have the specification in the exact amounts of shares and the exact offering price, therefore the Company could not estimate the number of capitals receiving in this time yet, in which each offering will depend on the necessity to use the capital at each period and on the market condition at that time. However, the issuance and offering of shares in this time that require the shareholder approval, the board of directors will consider it with cautious and take into account of the necessity and most benefit to the Company and shareholders.

Expected effect incurred to the business operation of the Company, financial status and performance results of the Company due to the capital increase and operation in accordance with the utilizing plan or project and the reimbursement plan for the Convertible Debentures in case there is no conversion occur during the maturity of Convertible Debentures.

The Board of Directors is of the opinion that the allocation of newly issued ordinary shares in this time will benefit the Company's business operation, and strengthen financial strength and stability, as well as enhance the liquidity of the Company including these shall make the Company has lower financial cost. This also enables the expansion in the investment and the business operation of the Company and/or to invest in new businesses which are related to or support the current businesses of the Company. As a result, the business operation of the Company has a tendency to growth in the future. In addition, this capital increase will help reduce the debt-to-equity ratio of the Company and increase the potential for borrowing loans in the future. Moreover, in the event that the Company has issued the convertible debentures and the convertible debenture holders do not exercise their conversion rights in the specified time. The company expects that business conditions in the next three years will improve from the current that its business has been significantly impacted by the Covid-19 epidemic, and it is expected that the company will have sufficient cash flow to reimburse the Convertible Debentures. The gain return from operations in the restaurant business or new projects launched in which the company has used the fund from convertible Debentures for business operation or expansion, or cash flow from the financial institution would return to support the credit facility to the Company again if the business conditions recover to normal. Furthermore, the Company, if necessary, may offer new ordinary shares to shareholders or investor via private placement, as the option. Nevertheless, the Company will consider the appropriateness during that time in making decisions. By taking its into account the maximum benefits to the company and shareholders.

##### **5. Certification of the Board of Directors of the Company regarding the capital increase**

In the case where the directors of the Company do not perform their duty with honesty and care to preserve the benefit of the Company in relation to the capital increase, If such omission of performance causes damage to the Company, the shareholders are entitled to file a lawsuit to claim for damages from such director on behalf of the Company as specified in Section 85 of the Securities and Exchanges Act B.E. 2535. In addition, if such omission of performance causes a director or his/her related person to obtain undue benefit, the shareholders shall be entitled to file a lawsuit to reclaim for benefits from such director on behalf of the Company as specified in Section 89/18 of the Securities and Exchanges Act B.E. 2535.

The Company hereby certifies that the information contained in this report is accurate and complete in all respects.
