Announcement
Environmental Policy

JCK Hospitality Public Company Limited is committed to produce quality and safe food by realizing impacts on all steps of production procedure. As a consequence, Environmental Policy is established as guidelines for every employee's operation as follows:

1. The Company focuses on environment management to prevent pollution and improve resource utilization with effectiveness and worthy to achieve maximum benefit.
2. Provide knowledge and training to employees and arrange activities to encourage employee involvement in environment issues in order to create their awareness about environmental responsibility.
3. Promote and comply with environmental laws, together with development of work standards in compliance with environmental regulations.
4. Control utilization of electric energy and water to reduce impacts on environment and investigate quality of waste water.
5. Publicize the policy to all employees, persons involved with the Company and the public as well as provide assistance and support environment management activities.

Please be informed accordingly.

Announced and came in to force on October 9, 2018
